

# MEN'S LIFE BLOOMINGTON

September Key Topic

## Building a Culture of Innovation

Thomas Edison was one of the greatest inventors in history. He has 1093 U.S. patents. Some of his most well-known inventions are the electric light, sound recording and motion pictures.

We all have the potential to be innovative – maybe not quite at the Edison level – yet at a level greater than where we are today.

For the 2022-23 season, Men's Life is going to look at **9 different Key Topics**. On the 2<sup>nd</sup> Tuesday of the month, we will have a 15-minute TED style talk on the topic along with small-group dialog for further interaction. Two weeks later, on the 4<sup>th</sup> Tuesday, we will follow-up with what the Bible has to say about that topic. Future topics are yet to be decided. The full schedule, when available, will be on our Website.

### Speaker Details

Paul Konstanski brings over 40 years of professional innovation experience and many examples of innovative ideas. For 35 of those years, Paul was mentored by Steve Douglass who has a Harvard MBA and was the former president of Cru. Paul is a graduate of the University of Minnesota with a degree in Leadership Communication Studies.

Men's Life exists to support men in their walk with Christ. We come together to discuss the issues and problems that are common to men. This includes supporting and praying for each other as we seek to glorify God.

The "Key Topics Approach" will address topics that men face. The goal is to help us be better husbands, dads, employees, employers and ultimately better Christ-followers.
