MEN'S LIFE BLOOMINGTON

November Key Topic

Adoption: the journey, challenges & misunderstandings

Adopt: to take by choice into a relationship;
to take voluntarily as one's own child

Each adoption experience is different. Individual agency's have their own tools and resources. When it is an international adoption it adds a whole new dimension. Throughout the past few years we here at Men's Life have followed the adoption journey that Daniel and Lisa Coons have embarked on. We saw the Bulgarian adoption come through and we are now tracking a second from Thailand. Daniel will share about the overall journey, the challenges, and misunderstandings surrounding adoption.

Next Session Details

Speaker Details

Daniel Coons is an Electrical Engineer at Technology Service Corporation (TSC).
Daniel has a BS from Rose-Hulman Institute of Technology and a M.Eng in Engineering Management from Purdue University.

For the 2022-23 season, Men's Life is going to look at **9 different Key Topics**. On the 2nd Tuesday of the month, we will have a 15-minute TED style talk on the topic along with small-group dialog for further interaction. Two weeks later, on the 4th Tuesday, we will follow-up with what the Bible has to say about that topic. Future topics are yet to be decided. The full schedule, when available, will be on our Website.

Men's Life exists to support men in their walk with Christ. We come together to discuss the issues and problems that are common to men. This includes supporting and praying for each other as we seek to glorify God.

The "Key Topics Approach" will address topics that men face. The goal is to help us be better husbands, dads, employees, employers and ultimately better Christ-followers.

*Located at 311 S Lincoln St, you can park in the lot to the south or on Lincoln St which is one-way southbound.
